

October 5, 2013

**THE INFORMATION BELOW IS EXCLUSIVELY FOR THE USE OF
PLBC MEMBERS**

DARTS: Wednesday, October 7 will be the first "Dart night" of the winter season. Bring your own darts or use the limited supply of club darts. We start chucking pointy things at 7:00 PM. All members are invited to participate. **Tex & Andy**

Umpire's Corner: The National Officiating Committee has given us clarification on measuring and the marking of the centre line.

In Summary: Measuring is defined as the use of any equipment placed between the jack and bowls to decide which bowls are shot. Measuring equipment and things like score cards, bowl lifters, feet or hands **cannot** be used to estimate shot before the count has started. The cross finger method which is typically done in the air above the jack and bowls **is acceptable**.

The use of chalk to draw dots on or short lines in front and behind the jack after it has been delivered and centred **is an acceptable** practice to speed up the game.

Keith Baker, Umpire
